CONTINUANCE

1. **TA2002-0001 – CHAPTER 60 (Special Requirements), CHAPTER 20 (Land Uses), CHAPTER 40 (Permits and Applications), AND CHAPTER 90 (Definitions) TEXT AMENDMENTS**

(Continued from November 6, 2002)

(Reviewed under Development Code in effect prior to September 19, 2002)

This is a request for Planning Commission approval of a City-initiated series of amendments to sections of the Development Code for the implementation of regulations and standards for wireless communications facilities. Wireless communication facilities include, but are not limited to, cellular phone towers, antenna panels and arrays, and satellite dishes. The amendments to Chapter 60 will create a new section, and will modify the special use regulations for height exemptions. The new section in Chapter 60 will establish applicability standards, exemptions, development standards including but not limited to standards for height, setbacks, and design, special study requirements, temporary use standards, collocation standards and standards for abandoned facilities. Text amendments to Chapter 20 (Land Uses), Chapter 40 (Applications), and Chapter 90 (Definitions) are also proposed to support the implementation of the proposed regulations and standards for wireless communications facilities. Amendments to Chapter 20 (Land Uses) are necessary to address the permitted, conditional and prohibited use status of wireless communication facilities in established zoning districts. Amendments to Chapter 40 (Applications) are necessary to identify the applicable permit applications for the different types of wireless communication facilities specified in the new section of Chapter 60. Amendments to Chapter 90 (Definition) are necessary to define key terms specific to wireless communication facilities identified in the new section of Chapter 60.
